

BULLETIN N° 86

SUNTEC pumps and BIOFUELS

SUNTEC, world leader for oil burner pumps, has already shown its involvement in the field of the use of biofuels (refer our bulletins 84 and 32).

Today our complete range of pumps is ready for work with biofuels : we developed new specific models as a supplement to our standard pumps.

Pump types	Characteristics	Prices (compared to our standard models)
AN / AE	specific models*	on request, according to quantity
AS	specific models*	on request, according to quantity
AL	specific models*	on request, according to quantity
AT / AP	specific models*	on request, according to quantity
AJ	specific models*	on request, according to quantity
J	use E models	
E / TA / T	standard models are suitable for biofuels applications	=

* These models are identified with their own reference number and by the letter "V";
ie : pump reference AE **V** 67 B 7286 4P is a special model for biofuels.

Do not hesitate to contact us :
we will be happy to assist you !
